Workshops

1. Cross Cultural Psychiatry

Goal is to understand basic principles in assessing and caring for patients from different cultural and ethnic backgrounds.

2. Anxiety Videos

Two short videos on recognition and treatment of anxiety disorders will be shown.

3. Formative OSCE (This is a requirement for passing the course).

Simulated OSCE where the student is examined on mental state examinations, diagnoses and management.

4. Child and adolescent session.

A case will be presented and an open discussion on diagnosis and management of a Child and Adolescent patient will ensure.
