

# IPLit Update January 2008

Injury Prevention Information Centre  
Social and Community Health, School of Population Health  
University of Auckland

**IPLit Update** is a monthly bulletin to keep you up to date with the latest injury prevention research and best practice from New Zealand and around the world.

The IPLit database of all reports, articles and other resources indexed since the early 1990s and a list of all IPRC publications can now be accessed from the IPIC homepage at:

[http://iplit.fmhs.auckland.ac.nz/search\\_menu.htm](http://iplit.fmhs.auckland.ac.nz/search_menu.htm) . This is a new page which links to the IPLit and INZED search pages, which all have a new look with Simple and Advanced search functions. A guide to the IPLit database is at: [http://www.health.auckland.ac.nz/ipc/pdf/rb1\\_jun\\_07\\_iplit.pdf](http://www.health.auckland.ac.nz/ipc/pdf/rb1_jun_07_iplit.pdf)

You are welcome to visit the Injury Prevention Information Centre and browse the collection.

**The Injury Prevention Information Centre provides an enquiry service.  
Please contact me by email or telephone.**

Gay Richards: email: [injury@auckland.ac.nz](mailto:injury@auckland.ac.nz) or by phone: (09) 373 7599 x84640

Access the IPLit and INZED databases at: [http://iplit.fmhs.auckland.ac.nz/search\\_menu.htm](http://iplit.fmhs.auckland.ac.nz/search_menu.htm)

Full contact details can be found at the end of IPLit Update

## Upcoming Events

**Bike Wise Week 23 February – 2 March**

**Children's Day 2 March**

**Feet First - Walk to School Week 3-7 March**

## Publications

**IPLit Update** Includes books, reports, articles, journals and newsletters received or accessed this month. Active links to documents freely available on the web are provided, however web addresses can change. If the link does not work, try going to the homepage, shown at the beginning of the address and look for a publications or resources page, or contact me. DOIs are provided where available. These are permanent links to journal articles but unless the publisher provides free access to articles, you may only be able to reach the abstract via this link.

**IPNANZ members are reminded that they have free access to the *Injury Prevention* journal via the IPNANZ website – <http://www.ipnanz.org.nz> . If you have forgotten your IPNANZ login details, please contact Val Norton at IPNANZ: email: [v.norton@ipnanz.org.nz](mailto:v.norton@ipnanz.org.nz) or call 04 472 2562** The Injury Prevention Information Centre may be able to supply you with hard copies of resources listed here, but will be constrained by copyright in some cases. Your organisation's library may hold some of these resources or they can be obtained through your local public library via interlibrary loan. Please contact me if you have difficulty obtaining a particular item.

**Search the [IPLit](#) database for injury prevention research resources selected for their relevance to the New Zealand environment. For more injury prevention articles from around the world, search [SafetyLit](#)**

## Reference

7351

**Preventing injuries and violence: a guide for ministries of health [Guidelines]** Geneva: World Health Organization, 2007, 36pp. 978 92 4 159525 4

This document is intended as a guide and reference book for ministries of health. It outlines the stages of setting up, developing and evaluating violence and injury prevention efforts, stressing collaboration with other sectors. The various tasks of organisation, policy development, data collection, advocacy work and capacity-building are described in detail. Both new and established units of violence and injury prevention should find inspiration for their programmes in this document.

## Falls

7383

Campbell, A.J., Robertson, M.C.

**Rethinking individual and community fall prevention strategies: a meta-regression comparing single and multifactorial interventions [Article]**

***Age and Ageing***, 2007, 36(6): 656-62

Researchers from the University of Otago try to determine if randomised controlled trial evidence supports interventions with multiple components over single strategies in community based fall prevention. The results of the meta-analysis of studies suggests that single interventions may be as effective when targeting community based at risk populations.

**Improving public safety under the Dog Control Act 1996: policy options** [Discussion document]

Wellington, N.Z. Department of Internal Affairs, December 2007, 26pp.

Dog control is regulated by the Dog Control Act 1996. The Act is implemented by city and district councils with the support of their communities. The regime for dog control requires compliance with the Act, under which dog owners are responsible for the control of their dogs. Together with the Dog Control Amendment Act 2003, the Dog Control Amendment Act 2004 and the Dog Control Amendment Act 2006, the Dog Control Act is intended to improve the safety of New Zealanders around dogs. This discussion document seeks the public's views on ideas that could help further improve dog control and public safety around dogs. Submissions close 5.00pm, Monday, 31 March 2008. A response form can be downloaded from the website link provided below.

**Safety and local government - partnerships and collaboration: how to find all those intersections and actually do something about it** [Article]

*Social Policy Journal of New Zealand / Te Puna Whakaaro*, November 2007, 32: 94-105

This article provides a case study of why and how one New Zealand territorial local authority, Wellington City Council worked towards achieving Safe Community status. It describes the partnerships and collaborations that were part of this process. It demonstrates that to improve community safety it is necessary to develop policies that encourage successful partnerships and networks between individuals, organisations and other providers.

**DHB Occupational Health & Safety Conference, held at Spencer on Byron, Takapuna, Auckland, 25 & 26 October 2007** [Conference proceedings]

Presentations from the DHB OH&S conference are available online. Each presentation can be viewed as a pdf document. List of presentations:

The expanding role of OHS / Stephen McKernan, Director General of Health

Strategic frameworks for marketing health & safety / Aasha Murthy, University of Auckland Business School

How to present a business case / Rachel Haggerty, Adult Health Services, WDHB

The components of a safety system: the Human Factors approach to OH&S / Dr Katherine Callaghan, University of Auckland

Medico legal aspects of injury causation / Dr John Kennedy, University of Auckland

Older and wiser: the aging workforce / Dr Courtenay Kenny, Waitemata DHB

Capable management of health and safety / Gavin Johnson, NZIM, Gavin Johnson & Associates

The future of the ACC Partnership Programme from an ACC perspective / Phillippa Greer, ACC

The future of the ACC Partnership Programme from a TPA perspective / Brian Blackman, Wellnz

the future of the ACC Partnership Programme from an employer perspective / Carl Stent, NZ Post

Aggression management / Colin Schleiger, Austin Hospital, Australia

Bullying and harrassment / Hayden Olsen, Wave Consultants

Resilience development: strengthening our people / Colin Cox, Ignition

The obesity challenge: working in bariatrics / Mary Muir, Bariatrics

Management system that works, I'd like to see that: workshop / Gavin Johnson

Designing for the future: engaging stakeholders in facility design / Gillian Cossy, CMDHB

What is OHSIG? / Ian Bartlett, Paragon Health and Safety Ltd

Wellness: a working concept / Jim McLeod, Company Health Service

**Noise injury prevention strategy for the Australian farming community** [Strategy document]

Moree, NSW: Farmsafe Australia Inc, 2002, 37pp. 1 876491 25 6

This document outlines evidence which describes the nature and extent of the problem of noise injury and its associated hearing loss. It defines ten key elements in a strategic approach to addressing the problem.

These key elements encompass noise injury prevention / promotion; service delivery; and quality of life issues, for all members of the farming community who may be already affected by noise injury or are at risk of hearing loss from noise.

**Aua'i i le galuega: A Pasifika research design ensuring ownership and autonomy** [Article]

*Social Problems*, November 2007, 32: 106-125

Aua'i i le galuega (direct involvement) is a research design developed by a group of Pasifika university students, and is based on an approach taken by the students to determine ways to improve their academic performance and learning outcomes. This paper proposes a research design which enables the direct involvement of "minority" groups in designing, directing and carrying out their own research. This article should be of interest to all those involved in injury prevention research in New Zealand, particularly those who wish to engage with Pacific communities.

*Social Problems*, November 2007, 32: 106-125

Aua'i i le galuega (direct involvement) is a research design developed by a group of Pasifika university students, and is based on an approach taken by the students to determine ways to improve their academic performance and learning outcomes. This paper proposes a research design which enables the direct involvement of "minority" groups in designing, directing and carrying out their own research. This article should be of interest to all those involved in injury prevention research in New Zealand, particularly those who wish to engage with Pacific communities.

## Road Traffic Injury

7385

McEvoy, S.P., Stevenson, m.R., Woodward, M.

**The contribution of passengers versus mobile phone use to motor vehicle crashes resulting in hospital attendance by the driver** [Article]

***Accident Analysis and Prevention***, 2007, 39(6): 1170-6

This study conducted in Perth, Western Australia found that mobile phone use increased the likelihood of a injury crash fourfold. It also found that an increased number of passengers also increased the risk of an injury crash for the driver, but less so than mobile phones.
