Welcome

E ngā waka, e ngā mana, e rau rangatira mā. Tēnā rā koutou katoa.
Malo e lelei, kia orana, talofa lava, fakaalofa lahui ati, ni sa bula, taloha ni, haloa olaketa, ia orana, kam na mauiri.
Whai te pae tawhiti kia tata whakamua te pae tata kia tina
Reach for the distant horizons and hold fast to those that you attain.

Welcome to the Faculty of Medical and Health Sciences (FMHS) at the University of Auckland. We are very pleased to present our Vision 20:20 initiative that aims to achieve Māori and Pacific success within health, increasing the number of Māori and Pacific health professionals to 10% of the health workforce by the year 2020.

Vision 20:20 has three components coordinated by Te Kupenga Hauora Māori (Māori Health). The following components are highlighted throughout this brochure: Māori and Pacific Admission Scheme (MAPAS); Hikitia Te Ora – Certificate in Health Sciences (CertHSc); and The Whakapiki Ake Project (WAP).

It is with great pleasure that I welcome you to the Faculty of Medical and Health Sciences. We are an internationally recognised comprehensive health sciences faculty, offering a range of education and research options to best equip you for your chosen career in health.

This prospectus is a guide to the undergraduate study options offered through our six schools: Medicine, Medical Sciences, Nursing, Pharmacy, Population Health, and Optometry and Vision Science. Fundamental to all our programmes is our staff who are themselves active professionals, scientists and researchers who work at the frontier of their respective disciplines. The knowledge they pass to you is based on experience, practice and the latest research and understanding. Many of them are world-recognised academics. If you decide to join us in 2017, you will be part of an active 2,000-strong undergraduate student body studying in our professional, health sciences or biomedical programmes.

The Grafton campus is located across from New Zealand’s largest hospital. Our campus has just completed an extensive upgrade and our facilities rival the most modern in the world. The campus is also opposite the beautiful Auckland Domain in the heart of a city that is ranked third out of 230 world cities for quality of living. Studying at the University of Auckland will enable you to discover and enjoy the many cultural and recreational activities our beautiful City of Sails has to offer.

Many of our staff have contributed to significant discoveries and advances in modern medicine and our graduates can be found in the world’s best hospitals, medical centres, laboratories and biotech companies. So I invite you to explore our prospectus and website and to discover our range of options available.

I look forward to welcoming you as a student to the faculty in 2017.

PROFESSOR JOHN FRASER
Dean, Faculty of Medical and Health Sciences
The University of Auckland

*Mercer Quality of Living Survey: 2016

Vision 20:20

Vision 20:20 is the Faculty of Medical and Health Sciences’ commitment to increasing the number of Māori and Pacific health professionals to 10% of the health workforce by the year 2020. Vision 20:20 has three components coordinated by Te Kupenga Hauora Māori (Māori Health).

The Whakapiki Ake Project (WAP)

Māori Recruitment

The Whakapiki Ake Project (WAP) is a recruitment programme that actively engages with rangatahi Māori enrolled in secondary schools to promote health as a career and entry into the Faculty of Medical and Health Sciences (FMHS) professional programmes. WAP offers exposure to health career options, assistance for students to apply to FMHS and some financial support for successful applicants.

Hikitia Te Ora – Certificate in Health Sciences (CertHSc)

Foundation programme

The Certificate in Health Sciences is a one-year foundation programme that prepares Māori and Pacific students for tertiary study in health sciences, which is necessary for success in First Year (FY) courses within the faculty and ongoing study in health Sciences, Medicine, Nursing, Optometry and Pharmacy. The CertHSc course content has a focus on academic and science literacy including chemistry, physics, biology, mathematics and population health.

Māori and Pacific Admission Scheme (MAPAS)

Admission/Retention/Academic and Pastoral Support

MAPAS is a supportive programme that provides admission, academic and pastoral support for Māori and Pacific students who are studying within the Faculty of Medical and Health Sciences. Our goal is to support the transition and retention of MAPAS students while on their cultural and academic journey, helping them to successfully complete and graduate.
MAPAS provides admission, academic and pastoral support for foundation and undergraduate students who are studying within the Faculty of Medical and Health Sciences (FMHS). Our goal is to support the transition and retention of MAPAS students while on their cultural and academic journey, helping them to successfully complete and graduate.

Am I eligible?

You are eligible for MAPAS if you:
1. Have verified indigenous New Zealand Māori or Pacific whakapapa/ancestry, and
2. Are a citizen or permanent resident of New Zealand, and
3. Have applied for entry into a FMHS programme.

Important dates

MAPAS General Interview dates for 2017 entry:
Monday 10 – Friday 16 December 2016

MAPAS Specialty Interview dates for 2017 entry:
Thursday 24 and Friday 25 November 2016

Programme application closing dates:

CertHSc

BPharm

BHSc

MBChB (Part 1)

BOptom

8 December 2016
1 October 2016

How do I become a MAPAS student?

To become a MAPAS student you must:
1. Go to www.auckland.ac.nz/applynow and complete an online application for admission to your programme of choice by the closing date set by the programme.
2. Submit a HM04 form. See www.fmhs.auckland.ac.nz/programmes by the due date outlined on the HM04 form.
3. Attend a MAPAS General or Specialty Interview.
4. Be offered (and accept) a place in a FMHS programme.

Undergraduate Targeted Admission Scheme (UTAS)

UTAS is the University’s targeted admission scheme for Māori and Pacific students; students with disabilities; refugee and low socio-economic background students. Under the UTAS scheme a number of places in undergraduate programmes are reserved for students who have met the University Entrance (UE) standard but have not met the guaranteed entry score for the programme of their choice. UTAS places are available in all of the faculty’s undergraduate degree programmes (Health Sciences, Medicine, Nursing, Optometry and Pharmacy).

To be eligible for the UTAS scheme (as a Māori or Pacific applicant), applicants must:
1. Be citizens or permanent residents of New Zealand, and
2. Complete all of the MAPAS admission requirements.

Conditions may be placed on students who are admitted under UTAS. These may include:
• Participation in MAPAS activities.
• Restrictions on enrolment choices.
• Attendance at Orientation programmes.

*The MAPAS application and admission process does not apply to those wanting to pursue postgraduate studies within the FMHS.

For further information on applying to MAPAS for Semester Two, please email mapas@auckland.ac.nz

Māori and Pacific Admission Scheme (MAPAS)

MAPAS House is a great space where everyone supports and looks out for one another. This is really important when transitioning from high school to university life. Before coming into the MAPAS programme, I used to study by myself; however, when I was introduced to MAPAS, I learnt the significance of group study, which has been more effective and enjoyable.

*MAPAS truly is an awesome community where everyone supports and looks out for one another. This is really important when transitioning from high school to university life.

William Vunashi: Huapai, Tongatapu and Vava’u, Tonga, is studying towards a Bachelor of Medicine and Bachelor of Surgery.
MAPAS General Interviews
Applicants who are eligible for MAPAS and have applied to the Centrelic, BMRC or Burs will be invited to attend a MAPAS General Interview. Applicants need to be prepared to spend ONE whole day (from 8am-6pm) for the interview process, which will be held in Auckland in mid-December. The MAPAS General Interview involves the following processes:
- Pōwhiri – applicants and their whānau attend a Māori welcome at the beginning of the interview day.
- Multiple Mini Interview (MMI) – applicants rotate through a number of stations for short 1:1 interviews to assess the most appropriate academic pathway across a number of domains.
- Mathematics test – basic numeracy skills are identified by a written test.
- English literacy test – basic literacy skills are identified by a written test.
- Whānau/family feedback – applicants are invited to receive feedback of their assessment with their whānau on the day of the interview. This feedback will be based on our assessment of the Multiple Mini Interview and the Mathematics and English tests and will include a provisional recommendation for an applicant’s intended health career.
- A final MAPAS recommendation is made in mid-January when Year 13 school results become available.

It is the applicant’s responsibility to regularly check the email address that has been given to the University of Auckland.

MAPAS Specialty Interviews
Applicants who are eligible for MAPAS and have met programme application requirements for MBChB, BPharm and BOptom may be invited to attend a MAPAS Specialty Interview. A MAPAS Admissions Panel reviews all MAPAS applications and will determine whether an applicant is offered a MAPAS Specialty Interview based on an applicant’s academic record. Applicants who are invited to a MAPAS Specialty Interview will be notified by email. The MAPAS Specialty Interviews consists of a Multiple Mini Interview involving five stations assessing suitability to enter medicine, pharmacy and optometry under MAPAS. Please note all MAPAS Specialty interviewees will also need to attend a programme interview.

In order to book your place at the MAPAS General Interview applicants must have:
1. Submitted a complete MMI4 form.
2. Had their verified ancestry approved by MAPAS.
3. Applied to a programme within the Faculty of Medical and Health Sciences.

Introductory places are limited so we encourage applicants to submit their applications as early as possible. All correspondence will be by email, so it is important to check all mailbox folders.

How can MAPAS support me?

MAPAS Academic Support
All MAPAS students within the faculty receive additional academic support designed to help them succeed within their programme. MAPAS supports students academically by providing:
- Tracking of attendance and academic progress.
- MAPAS group tutorials for specific courses.
- MAPAS study space and computers.
- Study workshops and wānanga (in conjunction with Student Learning Services).
- Support to set up MAPAS study groups.
- Senior representation on faculty/programme boards including Board of Admissions and Board of Examiners.

MAPAS Pastoral Support
All MAPAS students within the faculty receive pastoral support designed to help them achieve success within their programme. This includes:
- Access to a full-time MAPAS Advisor for each programme, who is available to help students with any general issues such as accommodation, financial, personal, family or work.
- Assistance to access key support services such as Student Health and Counselling, Student Learning Services, Spiritual and Religious Support, Tuakana Network, Disability Office and the Examinations Office.
- Cultural development and support through workshops and wānanga.
- Peer/whānau support through regular cohort meetings.
- MAPAS wānanga (held prior to Semester One in conjunction with Student Learning Services).
- Support to set up MAPAS study groups.
- Senior representation on faculty/programme boards including Board of Admissions and Board of Examiners.

MAPAS Pastoral Support
All MAPAS students within the faculty receive pastoral support designed to help them achieve success within their programme. This includes:
- Access to a full-time MAPAS Advisor for each programme, who is available to help students with any general issues such as accommodation, financial, personal, family or work.
- Assistance to access key support services such as Student Health and Counselling, Student Learning Services, Spiritual and Religious Support, Tuakana Network, Disability Office and the Examinations Office.
- Cultural development and support through workshops and wānanga.
- Peer/whānau support through regular cohort meetings.
- MAPAS wānanga (held prior to Semester One in conjunction with Student Learning Services).
- Support to set up MAPAS study groups.
- Senior representation on faculty/programme boards including Board of Admissions and Board of Examiners.

MAPAS Pastoral Support
All MAPAS students within the faculty receive pastoral support designed to help them achieve success within their programme. This includes:

Hikitia Te Ora – Certificate in Health Sciences (CertHSc)

What is the Certificate in Health Sciences?

The CertHSc is a one-year foundation programme aimed at bridging Māori and Pacific students from secondary school study or from the community into programmes offered by the Faculty of Medical and Health Sciences. The programme covers a wide range of subjects from population health, biology, physics, chemistry and maths to academic professional development.

Who should apply?
The CertHSc is an ideal programme for students who may have:
- "Gaps" in their science knowledge from secondary school (ie, have only two out of the three core science subjects (biology, chemistry or physics)).
- Not achieved the rank score required or the level of credits in specific subjects required for direct entry into bachelor programmes offered by the faculty.
- Community/work experience and motivation that will make their success within a foundation programme possible.

The overall objective of the CertHSc is to increase the number of Māori and Pacific students completing programmes in healthcare and health sciences so they will eventually enter the workforce as successful health professionals.

Applying for the CertHSc

Students are selected for the CertHSc via the MAPAS General Interview process. (See pg. 4 & 5 for more details). Please contact the CertHSc MAPAS Advisor for more information about whether this is a suitable programme for you and your career plans.

Procedure for selection for CertHSc

Students are selected for the CertHSc via the MAPAS General Interview process. (See pg. 4 & 5 for more details). Please contact the CertHSc MAPAS Advisor for more information about whether this is a suitable programme for you and your career plans.

CertHSc Course Structure

A student enrolled in the CertHsc must:
- Follow a programme of two full-time semesters in one calendar year.
- Take a total of ten courses with a total value of 120 points (see course list opposite).
- Pass all courses to complete the CertHsc.

Completion of the CertHSc will grant students without university entrance qualifications "Ad Eundum" entrance to the University of Auckland and other New Zealand universities.

Semester One

Introduction to Biology
An introduction to the structure, function and processes of the human body at cellular and tissue levels.

Introduction to Chemistry 1
An overview of general chemistry principles with an emphasis on the language of chemistry and the use of mathematics to determine answers to chemical problems.

Introduction to Population Health 1
The social and contextual aspects of health. Concepts include introduction to epidemiology, models for conceptualising health, the aggregate health of groups, social determinants of health, health inequalities from a Māori and Pacific background.

Academic and Professional Development 1
Study and academic writing skills necessary for tertiary level study. Content focuses on a practical application of population health and Māori and Pacific health workforce development, while engaging students in their professional practice, cultural growth and leadership and communication.

Semester Two

Introduction to Mathematics for Medical and Health Sciences
Provides foundation skills in mathematics and develops mathematical competence. Topics covered include measurement, notation, functions, equations, exponential growth/decay, logarithms and statistics.

Introduction to Anatomy and Physiology
Presents an introduction to human biology through a study of the structure and function of mammalian organ systems with special reference to humans.

Introduction to Chemistry 2
An overview of systematic organic chemistry illustrating the diversity and reactivity of organic compounds, including reaction mechanisms and application of chemical kinetics.

Introduction to Population Health 2
Explores patterns and distributions in health and disease at a community level and the application of population health and Māori and Pacific health workforce development, while engaging students in their professional practice, cultural growth and leadership and communication.

Expectations of CertHSc students

Students are expected to take responsibility for their learning. Completing the CertHSc does not guarantee you entry to any health professional training programme, however it does provide you with a university entrance equivalent qualification that is necessary for acceptance into tertiary degree-level study. When you apply for entry to a degree programme, the grade point average in the CertHsc will show your ability to undertake university study successfully.
The Whakapiki Ake Project (WAP)

Kaupapa Māori Recruitment

Whakapiki Ake (WAP) is a recruitment project that actively engages with rangatahi Māori enrolled in secondary schools to promote health as a career and entry into Faculty of Medical and Health Sciences professional programmes. WAP operates within a kaupapa Māori framework across the recruitment pipeline (Year 9 to first-year tertiary study).

Whakapiki Ake eligibility

You are eligible if you have verified indigenous New Zealand Māori whakapapa/ancestry and are a citizen or permanent resident of New Zealand.

Whakapiki Ake offers

WAP offers exposure to health career options, academic enrichment and transitioning programmes, some financial support and Māori leadership development. WAP primarily targets secondary school students, however mature students may be eligible for WAP support.

Key activities include:

WAP Hui & Kura

The WAP team visits secondary schools across the North Island. WAP presents to rangatahi who may be interested in a career in health and ideally taking Applied Sciences (biology, chemistry, physics), Mathematics and English. These presentations are student-centered and focus on academic pathways to a career in health.

MASH (Māori Achieving Success in Health)

MASH is a four-day, Year 12 academic enrichment programme held at Waipapa Marae, the University of Auckland. Māori students who are interested in a career in health, and have exposure to NCEA Level 2 and Level 3 in Applied Sciences (biology, chemistry, physics), Mathematics and English (or B or CIE equivalent) are eligible to apply.

MASH 2017: 10-13 July, 2017
www.mahicareers.auckland.ac.nz

COACH (Creating Opportunities for A Career in Health)

COACH is a four-day, Year 13 transitioning programme held at Waipapa Marae, the University of Auckland. Māori students who are interested in a career in health and have exposure to NCEA Level 2 and Level 3 in Applied Sciences (biology, chemistry, physics), Mathematics and English (or B or CIE equivalent) are eligible to apply.

COACH 2017: 18-21 May 2017
www.mahicareers.auckland.ac.nz

WAP Year 13 Application Assistance

WAP provides Year 13 students with transitioning assistance including packages of support for:
- FMHS programme applications (Curriculum, BMSc, BM), MASH
- MAPAS applications
- Halls of Residence applications
- Scholarship information
- Matriculation and enrolment into FMHS programmes.

WAP Academic Support

WAP whakapikia offers support for students who are unable to attend MASH/COACH. Please contact us for more information.

Registering for Whakapiki Ake

All students applying to WAP are required to complete an online Whakapiki Ake Pukatono form.

To apply online visit:
www.mahicareers.auckland.ac.nz

Note: Additional applications are required when applying for specific WAP interventions, ie, COACH, MASH.

Contact the WAP team for assistance
Phone: 0800 20 99 option 5
Email: whakapikia@auckland.ac.nz

WAP Hui & Rohe

The WAP team will revisit regions (Aug-Sep) to connect and reconnect with WAP rangatahi and their whānau, in collaboration with iwi, schools, DHBs and others. The aim of these regional hui is to share key information about participation, achievement and retention in NCEA subjects at Level 1, 2 and 3 required for a career in health, and transitioning information from secondary to tertiary study within FMHS.

WAP Year 13 Application Assistance

WAP provides Year 13 students with transitioning assistance including packages of support for:
- FMHS programme applications (Curriculum, BMSc, BM)
- MAPAS applications
- Halls of Residence applications
- Scholarship information
- Matriculation and enrolment into FMHS programmes.

WAP Academic Support

WAP whakapikia offers support for students who are unable to attend MASH and COACH. Please contact us for more information.

Student financial support

Students supported by WAP in their first year of study receive a financial package that contributes to programme fees and accommodation costs and may provide for some course-related costs. The exact amount offered to students depends on their programme and the number of students accepted under WAP in any given year.

Semester One and Two WAP Check-in

Transitioning support continues with semester check-ins for all WAP students enrolled within FMHS programmes.

Online social media

WAP utilises Facebook as a way to communicate with WAP rangatahi. Updates on key events and activities are regularly posted. You can find us here:
www.facebook.com/whakapikiakewhanau

WAP Whānau Handover Dinner

On acceptance and enrolment into FMHS programmes, WAP hosts a dinner for whānau and students in February. All WAP students who have successfully enrolled in a FMHS programme are eligible to attend the whānau handover dinner.

Whānau Handover Dinner: 6 February 2017

Student financial support

Students supported by WAP in their first year of study receive a financial package that contributes to programme fees and accommodation costs and may provide for some course-related costs. The exact amount offered to students depends on their programme and the number of students accepted under WAP in any given year.

Semester One and Two WAP Check-in

Transitioning support continues with semester check-ins for all WAP students enrolled within FMHS programmes.

Online social media

WAP utilises Facebook as a way to communicate with WAP rangatahi. Updates on key events and activities are regularly posted. You can find us here:
www.facebook.com/whakapikiakewhanau

WAP Wānanga

Year 13 and 13 WAP students are invited to attend a three-day academic exam preparation wānanga prior to external examinations.

Auckland Study Wānanga 2016:
3-6 October 2016
Auckland Study Wānanga 2017:
3-6 October 2017

Next Steps to Uni!

WAP students and their whānau attend an overnight stay at one of the Halls of Residence after MAPAS interviews. The programme provides key need-to-knows for whānau and students regarding the transition from secondary school to FMHS, the University of Auckland.

Next Steps to Uni: 16-17 December 2016

WAP Whānau Handover Dinner

On acceptance and enrolment into FMHS programmes, WAP hosts a dinner for whānau and students in February. All WAP students who have successfully enrolled in a FMHS programme are eligible to attend the whānau handover dinner.

Whānau Handover Dinner: 6 February 2017

Student financial support

Students supported by WAP in their first year of study receive a financial package that contributes to programme fees and accommodation costs and may provide for some course-related costs. Transitioning support continues with semester check-ins for all WAP students enrolled within FMHS programmes.

Online social media

WAP utilises Facebook as a way to communicate with WAP rangatahi. Updates on key events and activities are regularly posted. You can find us here:
www.facebook.com/whakapikiakewhanau

WAP representatives first approached me at school in Year 13, and invited me to attend COACH. After experiencing first-hand the level of support that WAP offers students, I knew I wanted to attend the University of Auckland. WAP continued to encourage me throughout my four years at university, and provided opportunities for me to help give back to prospective rangatahi.

WAP provides an extremely valuable support system for students thinking about a career in health. The transition from school to university can be intimidating and WAP helps to ease that transition.

"Pharmacists are having much more of a clinical role in both hospitals and the community. Nobody knows as much about medicines and medicines safety as pharmacists. If you enjoy working with people, have an interest in the use of medicines and want a degree that can take you in so many different directions, then consider applying for the BPharm programme."

Robert Haua Ngāi Te Rangi, is a graduate of Bachelor of Pharmacy and is now a resident Pharmacist at Auckland City Hospital (ADHM).

WAP Whānau Handover Dinner

On acceptance and enrolment into FMHS programmes, WAP hosts a dinner for whānau and students in February. All WAP students who have successfully enrolled in a FMHS programme are eligible to attend the whānau handover dinner.

Whānau Handover Dinner: 6 February 2017

Campuses
The Faculty of Medical and Health Sciences is spread across two of the University’s satellite campuses – Grafton and Tamaki. Grafton Campus is situated in the central city suburb of Grafton, the campus itself is adjacent to the Auckland Domain and opposite the Auckland Hospital. A 15-minute walk from Grafton brings students to the University’s City Campus where a number of undergraduate lectures take place.

Grafton Campus is the base for students of the Medicines, Nursing, Optometry and Pharmacy programmes.

The faculty shares a close relationship with New Zealand’s finest specialist hospitals through strategic alliances with major district health boards, providing students with unparalleled access to environments of clinical excellence.

Tamaki Innovation Campus is home to the faculty’s purpose-built School of Population Health, which offers innovative research and teaching in population and community health. Unique to New Zealand, the school is setting new regional and international standards.

Students in the Bachelor of Health Sciences complete the majority of their degree at Tamaki Innovation Campus.

For a list of scholarship opportunities visit: www.scholarships.auckland.ac.nz

Visit us at Grafton Campus:
Ground Floor, Main Atrium
Faculty of Medical and Health Sciences
85 Park Road, Grafton
Open:
Monday to Friday 8.30am–4.30pm
Phone: +64 9 923 4888
Email: fmhs@aubay.ac.nz

Student Centre
The Faculty of Medical and Health Sciences has its own Student Centre, dedicated to addressing student needs. The Student Centre is located on the ground floor of the faculty’s Grafton Campus.

Staff can assist in a broad range of areas, including admissions, enrolments, scholarships, examinations, graduation, personal welfare, and accessing University-wide services. Confidential advice and assistance is also available.

In addition, information on services such as books, careers and employment, disability services, students’ associations, student health services and childcare can be accessed online at: www.auckland.ac.nz/studentupport

For a list of scholarship opportunities visit: www.scholarships.auckland.ac.nz

To view our range of accommodation options visit: www.accommodation.auckland.ac.nz

Libraries and Information Commons
The Philson Library on the Grafton Campus is the University of Auckland’s Medical and Health Sciences library, housing the main print collections in this area. The Library has invested heavily in electronic resources, and this Library website provides internet access to a wide range of electronic databases, e-journals and e-books.

Subject librarians are available to assist students to learn about and access the information they require for study and research. Facilities include computers, printing and photocopying.

The Grafton Information Commons offers students access to over 1,000 computers as well as borrowable laptops, all of which provide access to a wide range of software. In addition, there are scanners, photocopiers and printers as well as a Helpdesk Service, group study areas and casual seating.

Students based at the Tamaki Innovation Campus have access to the Tamaki Library and Information Commons, which houses the main print collections for population health as well as providing access to 42 computers and 3 borrowable laptops. In addition there are scanners, photocopiers and printers as well as a Helpdesk Service and study seats.

Student services

Campuses
The Faculty of Medical and Health Sciences is spread across two of the University’s satellite campuses – Grafton and Tamaki. Grafton Campus is situated in the central city suburb of Grafton, the campus itself is adjacent to the Auckland Domain and opposite the Auckland Hospital. A 15-minute walk from Grafton brings students to the University’s City Campus where a number of undergraduate lectures take place.

Grafton Campus is the base for students of the Medicines, Nursing, Optometry and Pharmacy programmes.

The faculty shares a close relationship with New Zealand’s finest specialist hospitals through strategic alliances with major district health boards, providing students with unparalleled access to environments of clinical excellence.

Tamaki Innovation Campus is home to the faculty’s purpose-built School of Population Health, which offers innovative research and teaching in population and community health. Unique to New Zealand, the school is setting new regional and international standards.

Students in the Bachelor of Health Sciences complete the majority of their degree at Tamaki Innovation Campus.

How to apply

APPLY ONLINE TO A FMHS PROGRAMME ($)
- www.apply.auckland.ac.nz
- Tick the Entrances Scheme boxes if you wish to be considered for MAPAS
- The Admissions Office will email you confirming your application(s) along with a request for further documentation from you. You must submit this documentation to complete your application.

APPLY TO MAPAS BY COMPLETING AN MH04 FORM
- Apply online or print a copy at www.fmhs.auckland.ac.nz/mapasforms
- For school leavers, we require your NZQA "My Results Summary".
- For all other applicants, we require your NZQA "My Results Summary" and any official transcripts of other study you have undertaken.
  Both can be attached to your online application to MAPAS or send us hardcopies with your application.

MAPAS will email you an acknowledgement receipt once we have your form. All information must be received and ancestry confirmed as eligible prior to interview bookings or assessment for interview.

IF YOU ARE ELIGIBLE FOR MAPAS

MAPAS General Interviews
If you have applied to CertHSc, BPhSc or BPharm you will be able to book an interview online. You will be emailed confirmation of interview details.

MAPAS Specialty Interviews
If you have applied to MBChB, BOptom or BPharm your application along with your academic record will be assessed to determine if you are offered a MAPAS Specialty Interview. You will be emailed the outcome of this assessment.

For further information on the interview process, and what happens next please refer to pg. 5 and 6 in this brochure.
