Publications

IPLit includes books, reports, articles, journals and newsletters received or accessed this month. Active links to documents freely available on the web are provided, however web addresses can change. If the link does not work, try going to the homepage, shown at the beginning of the address and look for a publications or resources page, or contact me. DOIs are provided where available. These are permanent links to journal articles but unless the publisher provides free access to articles, you may only be able to reach the abstract via this link. IPNANZ members are reminded that they have free access to the Injury Prevention journal via the IPNANZ website – http://www.ipn.org.nz. If you have forgotten your IPNANZ login details, please contact Val Norton at IPNANZ: email: v.norton@ipn.org.nz or call 04 472 2562 The Information & Resource Unit may be able to supply you with hard copies of resources listed here, but will be constrained by copyright in some cases. Your organisation’s library may hold some of these resources or they can be obtained through your local public library via interlibrary loan. Please contact me if you have difficulty obtaining a particular item.

Wellington: Ministry of Health, August 2006, 0-478-30029-8
Public Health Intelligence Monitoring Report, no.6
The Ministry of Health is withdrawing its publication Suicide Trends New Zealand 1983-2003 due to the way in which hospitalisation data was reported in the document. As a result of the changes to the hospitalisation data and the inclusion of new data the Ministry will re-publish the complete report under the title: New Zealand Suicide Trends: Mortality 1921-2003, hospitalisations for intentional self-harm 1978-2004. The expected publication date of this is early November. See link to Ministry of Health Media Release, 8 September 2006.

Diplock, S., Jamrozik, K. *Legislative and regulatory measures for preventing alcohol-related drownings and near-drownings*  
Examines the current legislation relating to consumption of alcohol in aquatic situations in Australia. Four states have laws prescribing maximum blood alcohol concentrations (BACs) for operators of recreational boats and most councils in NSW have restrictions on the consumption of alcohol in a public place. The authors recommend stronger legislative and regulatory controls.
